About Anthony's Janitorial & Maintenance Inc. (AJM)

At Anthony's Janitorial & Maintenance Inc. (AJM), our goal is to provide reliable, quality, and affordable sanitation solutions for every business we serve. We understand that every job we do is unique, and we will consult with you to create a detailed schedule that fits your needs. Whether you need a one-time cleaning, or a recurring plan, AJM is here to help. Attention to detail and personalized services have aided us in creating long-standing partnerships with clients in the Oakland County area for over 35 years.

We take great pride in our perfection and reliability when performing services. We believe that every element of the cleaning job, no matter how small, contributes to the overall quality of our service. To that end, our people are our greatest asset. The cleaning industry is notorious for high staff turnover, but at Anthony's Janitorial & Maintenance Inc., we have many staff members who have been with us since day one. We treat our people right, which translates into higher job satisfaction and consistent, quality service for our clients. The safety of your business is always a priority, and all of our staff are bonded, insured, and supervised to maintain the highest security standards.

Anthony's Janitorial & Maintenance Inc. (AJM) services a wide variety of industries and businesses including but not limited to:

Janitorial Services

AJM is extremely dedicated to helping you save money while maintaining a clean and safe working environment. We want to protect your image from being "tarnished" – pun intended. We understand that a badly maintained property will reflect poorly on your professionalism. AJM is trusted by some of the most renowned business in the Oakland County area. No matter how small or large the job, we can custom create a schedule that works around your hours and needs. Our staff are all extensively trained not only in janitorial requirements, but also in proper etiquette while on the job. We meet each of our clients' unique janitorial needs in a responsive and skilled manner, so that you never have to worry about your commercial janitorial service, and you can focus on your business.

Thank you for giving AJM Inc. the opportunity to submit this contract for your cleaning needs. We look forward to earning the privilege of your business, and trust you will be pleased with our services.

Disinfection Services

AJM uses an electrostatic disinfection fogging system to perform business disinfection services. It's a touchless application, meaning that all of those high-touch surfaces are coated with a powerful disinfectant that eliminates germs within 5 minutes and leaves surfaces dry in 10. You don't need to worry about moisture damage to your computers or other belongings. The disinfectant is distributed in a fine mist that doesn't stay on surfaces for long. A clean environment keeps everyone safe and healthy and keeps your business running smoothly. We're all looking forward to getting back to normal life, and thoroughly disinfecting your facility to protect against COVID-19 is one way to achieve that.

Carpet Cleaning Services

Your flooring says a lot about the way you run your business. A clean well-maintained office can entice potential clients and encourage employee productivity. Dirty, dingy floors can create a negative impression, deterring potential customers and diminishing staff morale. We offer comprehensive commercial carpet-cleaning services to businesses of all sizes.

Thank you for giving AJM Inc. the opportunity to submit this contract for your cleaning needs. We look forward to earning the privilege of your business, and trust you will be pleased with our services.

Window Washing Services

As a professional commercial window washing service with over 15 years of experience, AJM knows how to get the job done quickly and cost-effectively. From store fronts to high-rises, when it comes to choosing who you should hire for the job, the choice is “clear”.

In general, there are two reasons to have your commercial windows cleaned regularly: 1. Longevity of your windows, and 2. Promoting a clean impression to potential clients. The next time you see a sunbeam shining through a window, take a closer look. Do you notice all the little marks reflecting light, distracting you from focusing on what is inside? That’s dirt! If left for an extended period of time, this dirt can actually etch its way into the glass, and can permanently damage your window. Hence, it is important to have your windows cleaned regularly.

Clean windows attract customers by promoting a clean impression of your establishment. The eyes naturally gravitate towards windows, because they lead you to what’s inside. This is very important for storefronts, as displays are an important form of advertising. On the flip side...if a customer is focused on a dirty window, instead of what’s inside, you portray a bad impression. If a person can’t take care of their store, what does that say about the products inside?

AJM can organize a weekly cleaning schedule, so that your business continually gives the best impression possible. We are fully insured and bonded, so our clients can have peace of mind that their investments are protected. Our team members provide you with excellent customer service. For this reason, we tailor our services to meet your unique needs, and we make every effort to do work that is high quality. Let our knowledgeable employees assist you today. Give us a call! We will come to your business and give you a free estimate.

Thank you for giving AJM Inc. the opportunity to submit this contract for your cleaning needs. We look forward to earning the privilege of your business, and trust you will be pleased with our services.

Office Building and Suite Cleaning

From the boardrooms to washrooms and individual offices, clean working environments are important for the productivity and morale of your office. It is critical for the professional image of your company to have an organized well-cleaned headquarters.

We are a dedicated janitorial service with a keen eye for detail and the same reliability you require from your staff. Unlike other janitorial companies, we do not subcontract any work. All our employees are chosen by us. Each is insured and bonded to guarantee safety of your office. Each job is inspected thoroughly by Anthony (aka. "Tony", the owner), so you know you are getting the best possible cleaning on every single visit.

School and Daycare Facility Cleaning

Clean schools and daycares are a necessity for the proper health and development of children both academically and socially. Unfortunately, having so many people in one place heightens the possibility of harmful germs and viruses being spread. AJM provides experienced and safe janitorial services to all sizes of education institutions and daycare centers. We use environmentally-friendly products and are well-versed in removing gum, graffiti, marker, salt stains and boot marks. We know that a clean educational facility or daycare center goes a long way in assisting proper care and learning. Our janitorial staff are bonded, insured, never subcontracted and are closely supervised to ensure a job well done every time.

Gym and Recreational Facility Cleaning*

AJM is experienced in the unique needs of a fitness clubs, gyms, and other recreational facilities. From the front desk to the showers, workout areas, and changing rooms, we create a customized action plan based on your facility's needs. AJM strives to go the "extra mile" to eliminate contaminants and destroy bacteria. We sanitize with top-of-the-line cleaning solvents and prevent cross-contamination with innovative processes such as color-coded cloth usage. Understanding that sanitation is a top priority for you and your clients is how we have built longstanding relationships with many gyms over the years. We continually strive to provide you with the best janitorial services at the most competitive prices in the industry.

Health Care Facility and Medical Office Cleaning

Today's clinical environments demand strict adherence to healthcare mandates, regulations and standards all set in place to ensure facilities are safe and patients are given infection-free care. We ensure that the high standard of disinfecting solutions required in operating rooms are also used in adjacent support areas including waiting rooms, the front desk, corridors, nursing stations, and utility closets. With growing concern over infections, it has never been more important to engage in a program that reduces infection risks.

Thank you for giving AJM Inc. the opportunity to submit this contract for your cleaning needs. We look forward to earning the privilege of your business, and trust you will be pleased with our services.

Shopping Center Cleaning*

Shopping malls and complexes see thousands of visitors every day, and with those crowds come big messes. In the food court, trays fall, garbage cans overflow, and floors become slipping hazards waiting for hasty shoppers. An unclean mall loses customers as well as business leases very quickly.

AJM is a full janitorial service dedicated to quality, proper sanitation of your shopping center. A clean shopping experience will entice customers to stay longer and spend more money at your stores and on your services. AJM will keep your shopping center, including the food court, looking fresh and tidy every morning, giving shoppers an excellent impression and welcoming environment.

Bank and Credit Unions Cleaning*

We understand that a bank's brand is essential in customer acquisition and retention, and that a branch's cleanliness is vital in supporting its brand loyalty. Most customers will make a judgment of your establishment based on their initial impression of the interior and exterior. AJM has a highly trained workforce that will stop at nothing to deliver unrivaled cleanliness for the people who matter most – your customers. AJM ensures all branches have a consistent look in order to maintain your brand image. We have built longstanding relationships with financial institutions in the area based on our strong work ethic and impeccable quality record.

Industrial Complex and Warehouse Cleaning

From ensuring all equipment is sanitized to effectively removing graffiti, our teams can heighten the productivity of your facility. We assess your needs and create a custom schedule for your company. We offer the following service (and more) to our industrial clients:

- Warehouse floor scrubbing, degreasing and sealing
- Warehouse wall cleaning
- Paint removal on floors

Commercial Construction Cleaning

We know that once your building project is finished, you want to have it ready for occupancy as soon as possible. We also know about the dirt that is left behind during construction and are fully equipped to exceed the high standard of clean-up services required to make your site presentable. We are fully equipped and prepared to immaculately clean, polish, and ready your business for its debut. AJM has built a strong reputation in the industry for years of excellence as a post-construction pre-occupancy janitorial service.

Thank you for giving AJM Inc. the opportunity to submit this contract for your cleaning needs. We look forward to earning the privilege of your business, and trust you will be pleased with our services.

Green Cleaning

The term “Green Cleaning” refers to cleaning methods and products with environmentally-friendly ingredients designed to preserve human and environmental health. AJM values our planet and strives to reduce waste and toxic emissions in all our endeavors. We aim to use products free of chemically reactive and toxic agents which can cause respiratory and dermatological problems for both our clients and staff. We are also dedicated to recycling and lessening the use of wasteful products such as paper towels. We use microfiber cloths for dusting and other re-usable materials where applicable. These products get the job done right every time, but are much friendlier for our clients and our planet.

It is our belief at AJM that all efforts put into conserving the environment count towards a healthier population for the future. We are dedicated to the “Green Cleaning” approach on a daily basis. Through intensive training, our crews are educated with knowledge in environmentally preferred products, cutting edge equipment, and clean procedures that meet the industry standards.

“Why Green Cleaning?”

- Improve indoor air quality
- Reduce water and air pollution
- Reduce the amount of employee sick time and its associated costs
- Provide a healthier environment for occupants, employees and visitors
- Reduce the amount of toxic cleaning chemicals that end up in waste water

Our goals have always been founded on both immaculate quality and high sanitation standards for each and every job we do. You might think that toxic chemicals used in the past are the only way to properly disinfect surfaces, but this is no longer true. Thanks to industry developments, it is now just as effective to use certified “green” products to properly sanitize almost any surface. Contact us today to find out more about our recycling programs for our clients and our “green” commitment.

Thank you for giving AJM Inc. the opportunity to submit this contract for your cleaning needs. We look forward to earning the privilege of your business, and trust you will be pleased with our services.
